

CONTINUOUS COIN OFFERING

Continuous Coin Offering

A progressive coin offering in time,
starting small and getting bigger
over time for infrastructure builders.

CONFIDENTIAL

Continuous Coin Offering

CONFIDENTIAL

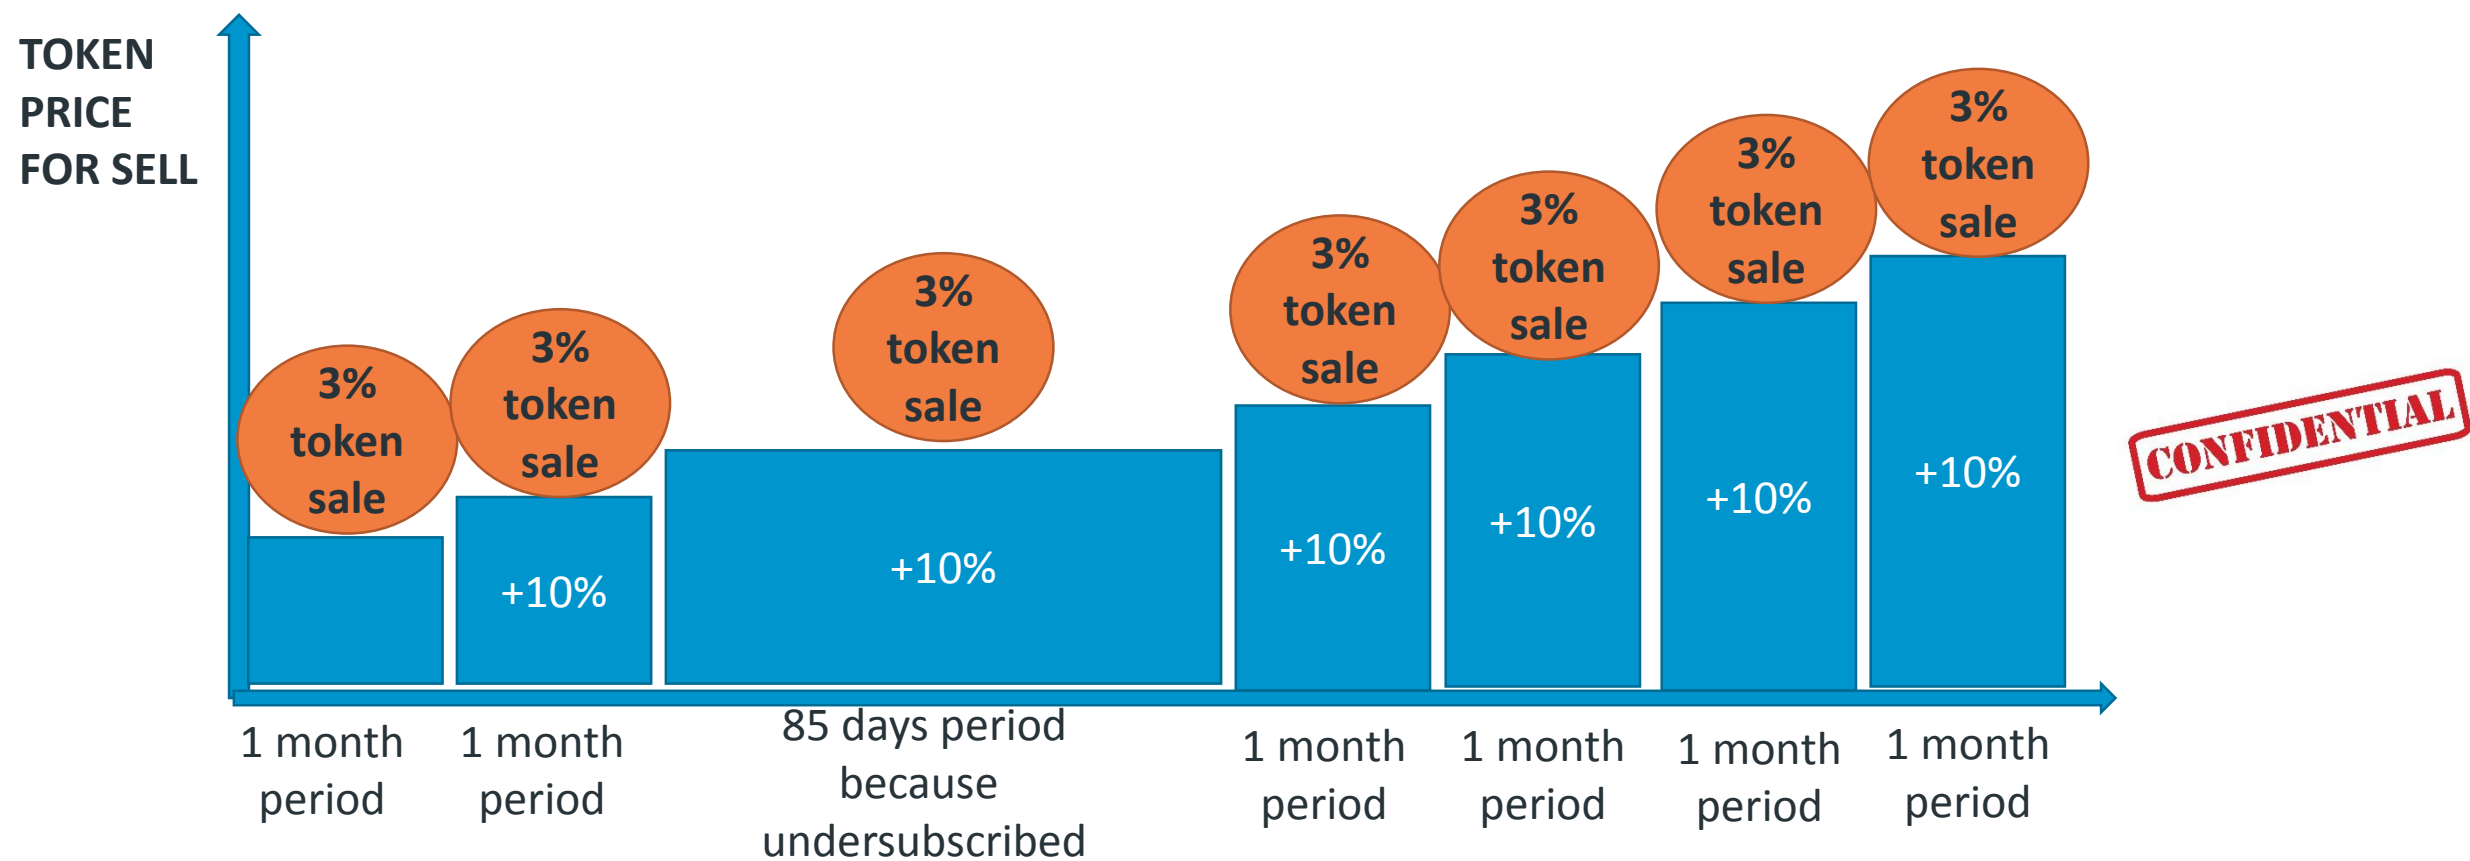

Continuous Coin Offering

Every month, we sell 3% of the total token supply.
10% is reserved at the beginning
for the initial investors and the team.

CONFIDENTIAL

Continuous Coin Offering

The total sale period is 30 months minimum.
If the 3% is not reached, the sale period is extended.

Why an increasing price ?

We help the token price increase in a controlled manner for infrastructure users

CONFIDENTIAL

Staking and KPI engagements

Token buyers investment is staked 50%.

The staking is released every 6 months based on the respect of some team engagement (example: performance KPIs).

Staking illustrated

The token

Token buyers investment is staked 50%.

The staking is released every 6 months based on the respect of some team engagement (example: performance KPIs).

CONFIDENTIAL

Investor rationals

If the project respects its engagement, there is good chance that new token buyers will come at TODAY+6Months at an increased price of 77.1%

If the project does not respect its engagement after 6 months, the token buyer gets 50% of their ETHER back. The token buyer still keeps its tokens, that can still gain some value.

THE PROTECTION IS MOSTLY FOR TOKEN BUYERS

CONFIDENTIAL

Rockchain CCO

5% for private investors at 80% discount

5% for the team

30 steps of 3% tokens release every 30 days

100,000,000 tokens

Every 30 days, 3,000,000 tokens are emitted.

Initial token price is 1 DAPP token = 0,000 01 ETH

Rockchain CCO expected amount raised

Rockchain engages in delivery deadlines every 6 months.

If Rockchain delivers on promises, maintaining the token demand, the amounts raised will be:
